

TECHNOLOGIES / SKILLS

- **Programming Languages:** JavaScript (ES6+), TypeScript, HTML, CSS
- **Major Software Frameworks:** React.js, Next.js, Astro
- **Tools:** Git, Jira, Bitbucket, Command Line, Visual Studio Code, Figma, Vitest/Jest, Cypress, Axios, React Query, React Router Dom

PROFESSIONAL EXPERIENCE

➤ **Front End Developer, VenueNow**

June 2023 - Present

* Significantly reduced bugs by implementing unit and end-to-end tests. Leveraged TypeScript for type safety and integrated Valibot for data contract compliance.

* Led the initiative to standardise coding practices across the team by implementing ESLint rules and adopting TypeScript. Designed a comprehensive front-end template for new projects, embedding best practices and modern tools to maintain consistency and elevate code quality.

* Improved the look and feel of our web applications using modern CSS and frameworks like Ant Design and Mantine UI.

* Built a safe login system using JSON Web Tokens and refresh tokens, ensuring users data is accessed securely.

* Demonstrated proficiency in integrating RESTful services, enhancing application functionality and communication with backend systems.

* Adhered to React best practices and design patterns, writing maintainable and efficient code. My focus on clarity and optimisation has led to improved codebase quality and team productivity.

➤ **Freelance Web Developer**

January 2022 - Present

* Wireframe and design websites using Figma and create website layout/user interfaces through standard HTML/CSS/JS practices.

* Build full-stack apps with React (Next.js), Tailwind and Firebase

* Build fast, SEO rich websites with Astro

* Experience in developing web pages complying with Web Content Accessibility Guidelines (WCAG) and ability to apply W3C web standards.

* Experience with Developer Tools across all major browsers.

* Good understanding of UX/UI principles.
