Language Skills: English | Polish

Professional Experience

FREELANCE WEB DEVELOPER | Newport, Wales

January 2022 – Present

- Wireframe and design websites using Figma and create website layout/user interfaces through standard HTML/CSS/JS practices, ensuring responsiveness, clarity, effectiveness, high traffic, page views, and full user experience.
- Develop a seamless approach to web development strategy while adhering to object-oriented design principles and client objectives.
- Validate test routines and schedules to ensure test cases mimic external interfaces and address browser and device types.
- Evaluate code to ensure it is compliant with industry standards, valid, properly structured, and compatible with browsers, devices, or operating systems. Identify problems uncovered by customer feedback and testing, then correct issues.
- Troubleshoot bugs and execute preventive maintenance, site updates, and continuous monitoring to safeguard and maintain site responsiveness and facilitate improvements that significantly boost web functionality and speed.
- Continuously apply the latest emerging technology, software, and project application trends to maintain site applicability.
- **Technologies:** HTML, GitHub, Microsoft Visual Studio Code, React.js, Git, JavaScript, Cascading Style Sheets (CSS)

TEAM TRAINER | Tesco

February 2019 – Present

- Coached and mentored new hires and colleagues using extensive leadership experience to ensure performance metrics were achieved in a fast-paced environment and that they received the necessary job induction and legal training.
- Offered strategic direction and guidance to cross-functional teams through hands-on leadership, training coordination, needs identification, training initiatives evaluation, documentation, and records maintenance.
- Fostered a culture of collaboration and efficiency by leading professional development and team building, supporting departments with legal refresher and skills training, and providing feedback to managers about concerns or opportunities.

Key Projects

- **Outletity:** Built a fully responsive e-commerce store with React, Sass Firebase authentication, storage, and database.
- **Array Method Finder:** Designed a simple app using React and Firebase that helps developers find the appropriate array method quicker.
- **Sikorska Notary:** Created an SEO-friendly and fast landing page using semantic HTML, CSS, and JavaScript.
- **Sylwia Pruczowska Photography:** Devised a photography website for a client who just started a new business using HTML, CSS, JavaScript, focusing on SEO and web performance.
- **Polish School in Newport (PL):** Developed a website to contribute to a Polish Community in Newport.
