EXPERIENCE

FREELANCE WEB DEVELOPER

2022 - Present

- Wireframe and design websites using Figma and create website layout/user interfaces through standard **HTML/CSS/JS** practices.
- Build full-stack apps with **React (Next.js)**, **Tailwind** and **Firebase**
- Experience in developing web pages complying with Web Content Accessibility Guidelines (**WCAG**) and ability to apply W3C web standards. Troubleshoot bugs and execute preventive maintenance, site updates, and continuous monitoring to safeguard and maintain site responsiveness and facilitate improvements that significantly boost web functionality and speed.
- Experience with **REST API** and **Apollo GraphQL**.
- Experience with **Developer Tools** across all major browsers.
- Good understanding of **UX/UI** principles.

PROJECTS

- **GO GREEN:** An app that lets users find a point to charge their electric cars using geolocation and OpenChargeMap API data. A user can create an account and save favourite locations, add comments or photos.
- **Outletity:** Fully responsive e-commerce store build with React, SCSS, Firebase authentication, storage, and database. Products come from Fake Store API.
- **LIVA Studio:** Photography website build with Next.js, Tailwind and Contentful for one of my clients.
- **Sikorska Notary:** SEO-friendly and blazing fast landing page using semantic HTML, CSS, and JS.
